RESOLVED: It is the policy of the Common Council of the City of Plattsburgh to encourage city departments and city residents to refrain from the use of GMO seeds and to refrain from the use of pesticides in the practice of lawn care and beautification.

- Whereas numerous scientific studies have demonstrated the danger of neonicotinoids and glyphosate used in conjunction with GMO crops to the health of honeybees and other¹ pollinating insects ;
- Whereas numerous studies have established that heavy neonicotinoid and glyphosate use in agricultural and commercial applications have contributed to an increase in cancer, birth² defects, Alzheimer's disease, Parkinson's disease, kidney failure, autism and many more ;
- Whereas a growing list of nations all over the world have banned the practice of planting³ GMO crops and spraying them with massive doses of neonicotinoids and glyphosate ;
- Whereas a growing number of jurisdictions in the U.S and Canada have introduced legislation⁴ designed to reduce and eliminate GMO and/or pesticide use ;
- Whereas local anecdotal evidence strongly indicates that pollinating insects, in particular honeybees, are endangered by the growing of GMO corn and the corresponding use of pesticides;

The City of Plattsburgh Common Council also resolves that:

- Residents of the City of Plattsburgh are encouraged to refrain from neonicotinoid and glyphosate use;
- City of Plattsburgh department heads are encouraged to minimize the use of pesticides and GMO seeds and to work toward eventual discontinuation of the aforementioned products;
- Commercial interests are encouraged to find alternatives to neonicotinoids and glyphosate in their operations;
- Although GMO crops are rarely grown within the city limits, the Common Council encourages our neighboring jurisdictions to adopt policies discouraging the use of GMO crops and spraying them with neonicotinoids and glyphosate;

The Common Council of the City of Plattsburgh acknowledges that we are unable to prohibit the sale, distribution and promotion of neonicotinoid and glyphosate pesticides and GMO seeds at this time. Therefore, our resolution can only be used to discourage the use of these within the city limits. We can use our influence, however, to implore State of New York and United States legislators to take statewide and nationwide measures on the production of GMO crops and the use of neonicotinoid and glyphosate pesticides. Therefore, the Common Council of the City of Plattsburgh resolves to:

- Direct correspondence to the governor of New York and our state elected legislators to encourage legislation at the state level banning the use of glyphosate, neonicotinoids and GMO seeds;

- Direct correspondence to our elected federal legislators requesting that U.S. Government take action to ban GMO seeds and the use of neonicotinoid and glyphosate pesticides nationwide.

If at any time it is conclusively proven that glyphosate use, neonicotinoid use and GMO crop production is in fact not harmful to pollinating insects, particularly our local honeybee population, then this resolution can be rescinded. However, currently, given the overall scientific evidence and the local anecdotal evidence from beekeepers and other agriculturalists, the Common Council affirms that the practice of GMO agriculture and the accompanying use of neonicotinoids and glyphosate appear to be harmful to the well-being of our citizens and must therefore be discouraged.

Footnotes:

1. The most recent study, Sub-lethal exposure to neonicotinoids impaired honey bees winterization before proceeding to colony collapse disorder conducted at Harvard University appeared in the June edition of the Bulletin of Insectology. – <http://www.bulletinofinsectology.org/pdfarticles/vol67-2014-125-130lu.pdf>

A slightly less scientific discussion of the same study: <http://csglobe.com/harvard-study-proves-why-the-bees-are-all-disappearing/>

2. A good place to start to learn about the contribution of neonicotinoids and glyphosate to disease: <http://www.beyondpesticides.org/dailynewsblog/index.php?s=cancer>

Another good link to understand the relationship between disease and pesticides: <http://www.beyondpesticides.org/dailynewsblog/2013/10/elevated-pesticide-exposure-documented-in-new-york-city-residents/>

3. A partial list of countries that have banned neonicotinoids, glyphosate and/or GMO crop production:

- European Union
- Colombia
- Sri Lanka
- Brazil
- Argentina
- Bermuda
- Hungary
- Peru
- Russia
- China

4. A partial list of jurisdictions that have adopted anti-pesticide and/or GMO resolutions:
- Eugene, OR,
 - Thurston County,
 - Spokane and Seattle, WA,
 - Shorewood and St. Louis Park, MN and
 - Portland, OR
 - U.S. Fish and Wildlife Service
 - Province of Ontario, Canada
 - Kamloops, British Columbia
 - Maui, Hawaii
 - Fairfax, CA
 - West Hempstead, NY
 - Takoma Park, MD
 - Seattle, WA
 - South Portland, ME

Subject: Re:Omnium Champlain Sailing Regatta

Mr. Peters

Hope all is well

On August 29-30 we are running the 39 edition of the Omnium Champlain in Plattsburg Bay.

Like I mention to you we want to host the event at the city Marina , 90% of the event is take place on the water, but 10% will be held on land.

We want to ask you if we can erect a tent to host the dinner party Saturday 29 , we will used the tent for the award ceremony on the 30 around 4 pm on Sunday.

The tent would be erected Friday and come down the monday we rent this from a local vendor.

The dinner will be held from 6pm untill 9 pm, a bbq cook out. We do not sell or serve alcool.

If you have access to half a dozen of table and 2 dozen chair that would be greatly appreciate.

We have a 23 ft security boat that we would like to dock at the city dock , if we could used the city dock for free this would also be greatly appreciate.

I was thinking to located the tent next to the storage pod on that patch of grass.

Thanks for your help with this request

Regards

Jean-Pierre

Mr. Turgeon:

I hope the Plattsburgh City Marina is meeting your needs and that you are happy with what we have out there.

When you originally asked me about locating the storage container on City property, you had said that it was for the Valcour Sailing Club. However, the club administrators have told me that they do not have access to it, nor do they need it for the club. It seems to be used as a private storage container. Private use of public property without proper authorization is illegal, unfortunately. Therefore, please have it removed immediately.

Sincerely,

Steve Peters

Subject: [PROBABLE SPAM]

Good Morning Beth,

We, the production company Conroy Farm Presents, are working on designing a weekly event, preferably in the City, for the 2016 summer season. That said our intention is to have a one time launch date of

August 21st this coming month to introduce the idea/ experience to the community so they have a preview of what is to come next summer. Here is a working outline/ request for you and the Mayor to

review/ consider. I apologize for the short notice as we are working to bring this fresh idea, with roots long in the making, to action quickly before we start the long process of organizing the

13 summer Fridays of 2016.

" Downtown Rising"

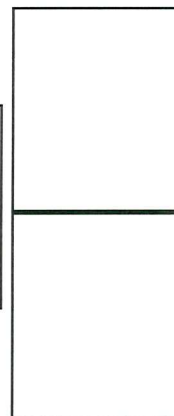

Food•Music•Art
Every Friday in
June/July/August
4-7pm Trinity Park

Permission to erect tent
20x40 now & up to 40x60 if needed in the future
The park space east of veterans monument is 50x100

Hook up to electric

We are considering only August 21st event at this time:

- Require:
- certificate of INS from Conroy Farm presents event & tent
 - vendors obtain permit city clerk
 - Dig Safe for Tent
 - Portapotty's - approx 5 per Health Dept for 300 people where alcohol served.
 - P.D. & Fire overtime
 - other?

Street: Close Trinity Place from 3:30-7:30 (for unload/load/food trucks)

Request to use park for Aug 21 2015
To launch & the 13 J/J/A Friday's for 2016

Allow local beer/wine/cider to be sampled by local producers

Event would be managed by Conroy Farm/ Simon Conroy /Danielle Giordano. Including vendor selection/fees/insurance/County health & safety regulations/promotion & general responsibility.

Park would be left as found after each event.

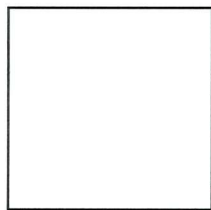

Current working lead sponsor is Mountain Lake PBS & possibly The Chamber

We are willing to pay a rental fee for wear&tear/guaranteed use as you see fit.
Please keep in mind additional expense could reduce initial vendor attendance / marketing potential.

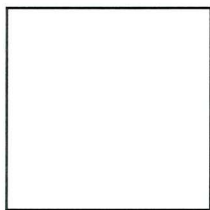

Vendors will include local businesses/ farmers/ prepared food/food trucks/ small music acts/ artisans. Estimated number is 12 with attendance around 300 people.

This is a private venture/ Open to the public. Alternate locations are private Downtown property, Rt 3 or Conroy Farm if you do not see this as feasible.

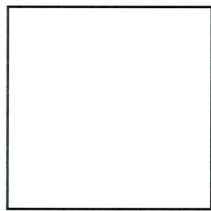

Trinity park is by far our first and best choice for the event to reach its potential and be long lasting.

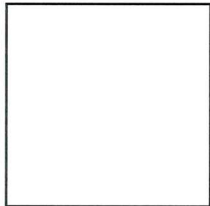

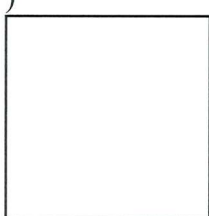

Reply

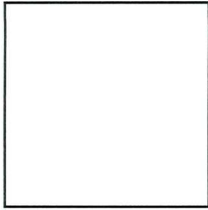

Forward

)

Conroy Farm Presents would prefer to pay an agreeable umbrella vendor/rental fee rather than have each vendor pay directly to The City

as we are handling marketing/ promotion to bring people downtown. We are in the process of securing a blanket insurance policy that would cover all vendors, as well as City Liability, rather than requiring each vendor to bring their own to the event.

Thank you for your consideration.

Feel free to call me with any questions/ concerns at 570-5016

I will be Downtown tomorrow and Friday if you would like to meet briefly in person.

With much appreciation,

Simon Conroy

Honorable James Calnon
Mayor, City of Plattsburgh
City Hall
Plattsburgh, NY 12901

UNIVERSITY POLICE

HEALTH CENTER

101 Broad Street
Plattsburgh, NY 12901-2681
Tel: 518-564-2022
Fax: 518-564-4025

Dear Mayor Calnon:

State University of New York College at Plattsburgh begins the 2015-2016 Academic Year with opening day on Saturday, August 22, 2015. On that day, hundreds of new students move into campus residence halls. Consequently, there is very heavy traffic flow and congestion on Rugar Street in the vicinity of the SUNY College at Plattsburgh.

It has been the practice for the past several years that only one-way vehicular traffic is permitted on Rugar Street – in the vicinity of State University property – on opening day from 7 A.M. to 7 P.M. The direction of travel will be westerly from the Myers Building roadway to the intersection with Sanborn Avenue. Additionally, the portion of Sanborn Avenue in front of our residence halls will be one-way only. The direction of travel will be northerly from Rugar Street out to Park Avenue. This practice was employed to enhance safety and relieve traffic congestion.

Therefore, I am requesting that University Police personnel be allowed to divert and direct a one-way traffic pattern in a westerly direction on Rugar Street between Myers Building roadway/Rugar Street intersection and the intersection of Sanborn Avenue/Rugar Street out to Park Avenue on Saturday, August 23rd.

Attached to this letter is a 2015-2016 Academic Year schedule.

Thank you for your consideration in this matter. Should you need further information, please advise me.

Sincerely Yours,

A handwritten signature in cursive script, reading "Jerry W. Lottie".

Subject: for City Council Agenda for BOP street closures

Hey little lady!

Below is my formal request to be added to agenda for City Council approval. Is this sufficient?

The Battle of Plattsburgh Commemoration Committee/City of Plattsburgh respectfully requests the following street closings for the September Battle of Plattsburgh program:

Friday the 11th of Sept: City Hall Place from Cornelia to Bridge, Court and Trinity Square from Margaret to City Hall Place 5-11pm

Saturday the same streets from 9 am to 11 pm. We think they will be able to open City hall place earlier but will assess the safety of pedestrians at the time and make that decision earlier if conditions permit.

Saturday add for parade: Cumberland Ave from Margaret to Saily close at 10 am to through traffic but allow local residents and business related vehicles permission to enter. Close to all traffic except emergency cases from 12:45 until parade clears the area. Also eastern end of Durand and Lorraine from lanelli. This would permit traffic to use both streets freely up to lanelli where it could loop back out to Saily if needed. Bridge street from Durkee to Macdonough during the parade.

We also ask that Lorraine and Durand from Saily to Cumberland, lanelli, Nichols, Cedar and Kellogg all be coned for no parking on one side of the street from midnight Sept 11 until the parade clears the area on Sept 12. This will help facilitate movement of floats, busses and emergency vehicles while the parade is forming.

Sunday streets listed in sentence #1 from 9 am - 5pm.
